Volume XVIII, Issue 3
September 2024

ISSN: 2334-3745

Abstract: This bibliography contains journal articles, book chapters, books, edited volumes, theses, grey literature, bibliographies and other resources on the Syrian conflict. To keep up with the rapid changing political events, the most recent publications have been prioritized during the selection process. The literature has been retrieved by manually browsing more than 200 core and periphery sources in the field of Terrorism Studies. Additionally, full-text as well as reference retrieval systems have been employed to broaden the search.

Keywords: Bibliography, resources, literature, Syria, conflict, uprising, civil war, Assad regime, opposition, rebels, terrorism

NB: All websites were last visited on 11 August 2024. This subject bibliography is the fifth instalment of a five-part series. To avoid duplication, this compilation only includes literature not contained in the previous parts. However, meta-resources, such as bibliographies, were included in the sequels. Literature focusing specifically on the "Islamic State" (a.k.a. ISIS, ISIL, Daesh) has been excluded as it is covered in a separate multi-part bibliography. For an inventory of previous bibliographies, see: https://archive.org/details/terrorism-research-bibliographies
